ULTRAFAST LASER TECHNOLOGY**  
APRIL 21–22, 2021

## SAVE THE DATE

# DON'T MISS THE 6<sup>TH</sup> UKP-WORKSHOP: ULTRAFAST LASER TECHNOLOGY! APRIL 21–22, 2021

The 6<sup>th</sup> UKP-Workshop will focus on processes and systems that can help companies capitalize on the full range of laser performance, such as high speed scanning or suitable beam shaping. Interesting presentations from over 20 international speakers will provide valuable know-how about selecting the right laser source or individually modifying the laser beam profile in time and space in order to have optimal process conditions.

### **Why attend the UKP-Workshop?**

- Benefit from the exchange with international specialists from laser development, process engineering and industry
- Discover more about the latest trends in ultrafast laser technology and get new ideas for promising future activities
- Take the opportunity to discuss specific problems with well-known companies at the accompanying tabletop exhibition

We look forward to welcoming you in Aachen.
